

## HealConn Test Case:

Team: HealConn

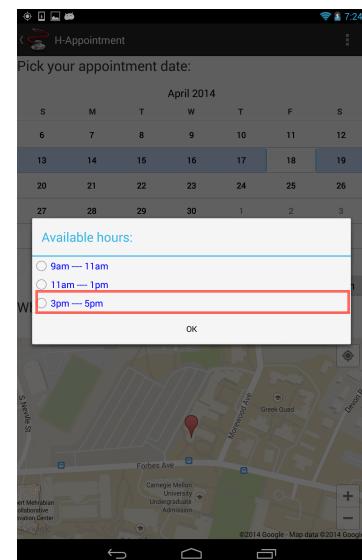

### 1. Make an Appointment:

Select the H-Appointment icon on the main panel.

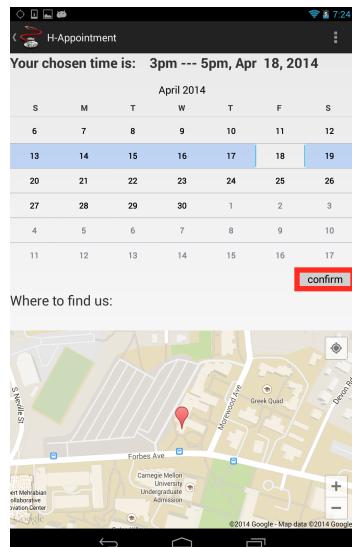

Team members: Yijie Ma, Wenting Shi

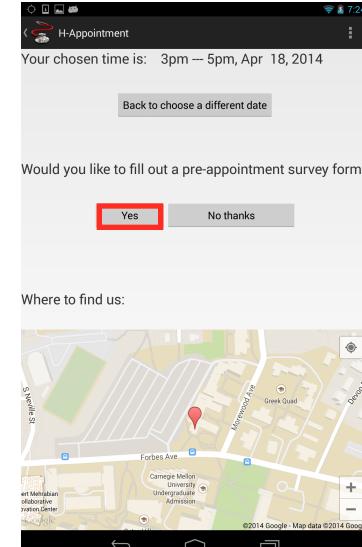

Select a specific date on the calendar view and a specific time on pop-up window.

After that, the chosen time will be shown on the view for user to decide whether to continue or not. Also, the location of the CMU Health Service Center will be shown in google map.

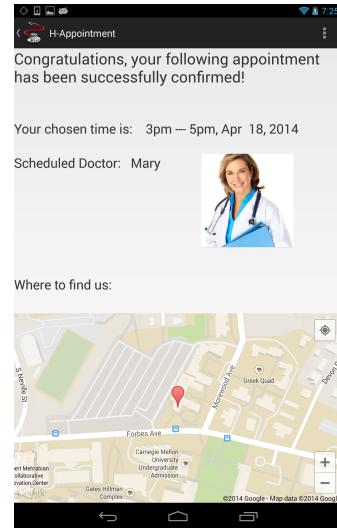

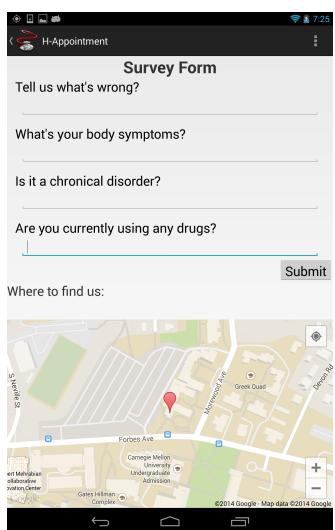

If user confirms the time for appointment, then he/she will be asked whether to fill out a pre-appointment survey form or not.

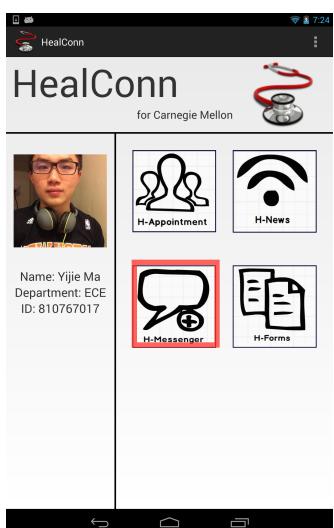

If user choose to do the pre-appointment survey form, then the form will be shown including four questions about the basic illness conditions of user.

After user has completed the form and click submit, it will be uploaded and system will arrange an available doctor to user(If the user choose “No thanks” when being asked to fill out the form, this view will be shown).

## 2. Send messages between user(student) and University Health Service:

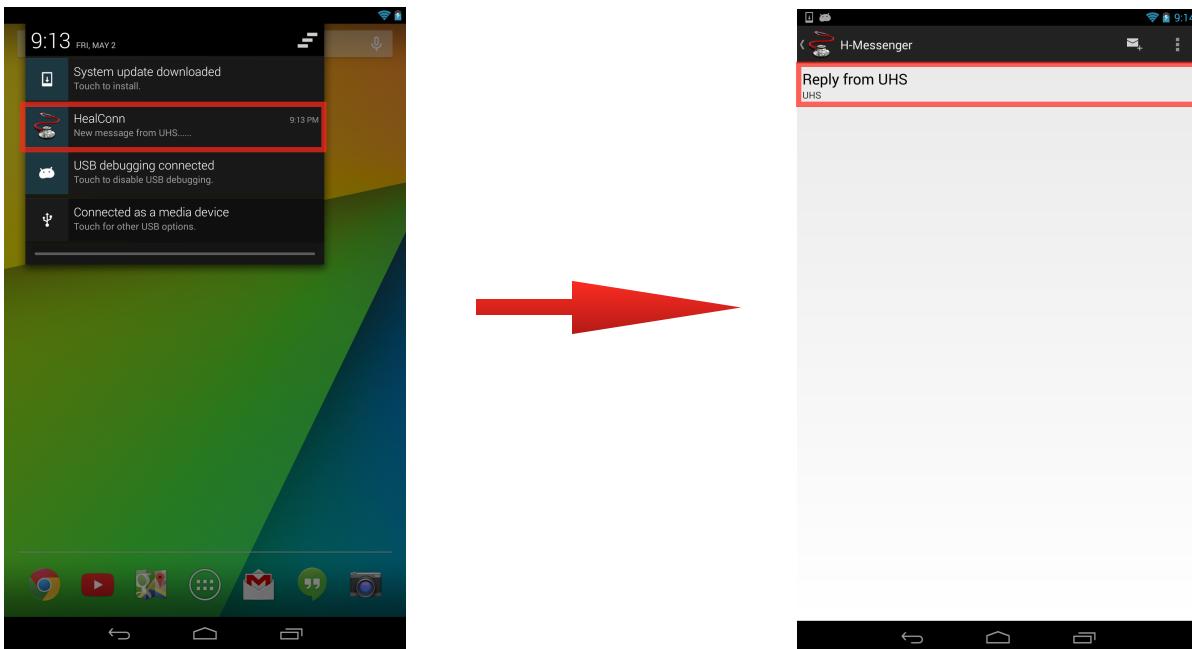

Select H-Messenger on the main panel.

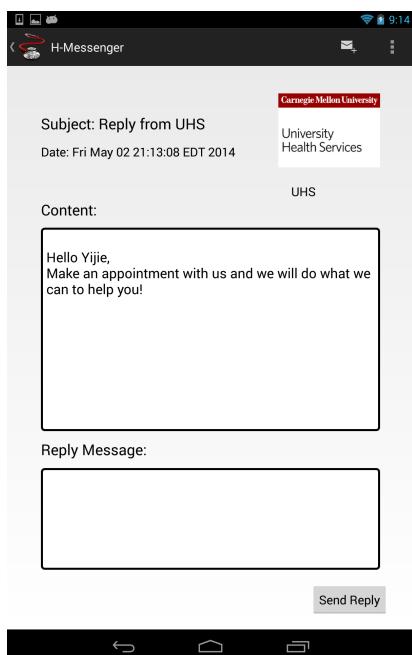

In the mail box, click the new message button on the top action bar to edit a new message sending to University Health Service.

After sending the message to University Health Service, user can do anything else on the device. Once the administrator from UHS side replies user, he or she will be notified instantly, like that:

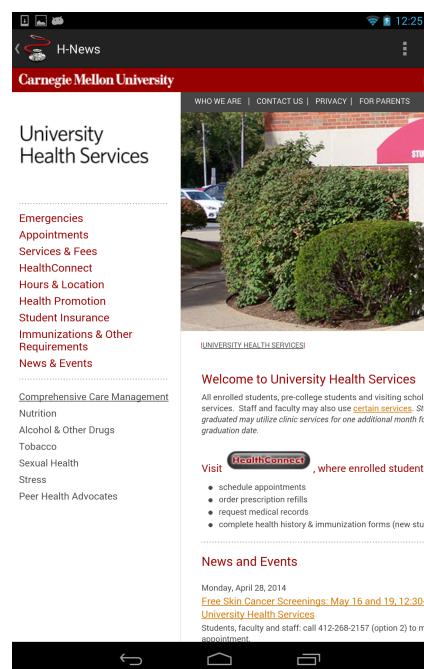

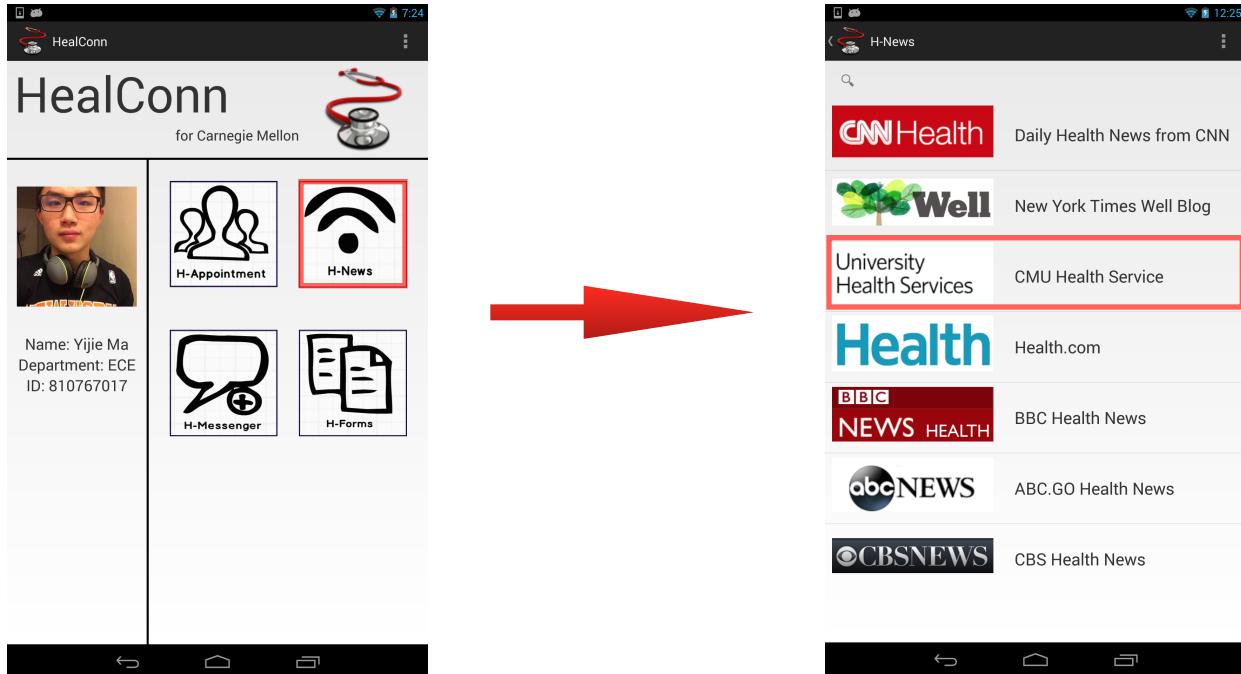

Click the message to see its detail information.

### 3. Browse latest health news

Select H-News option from the main panel.

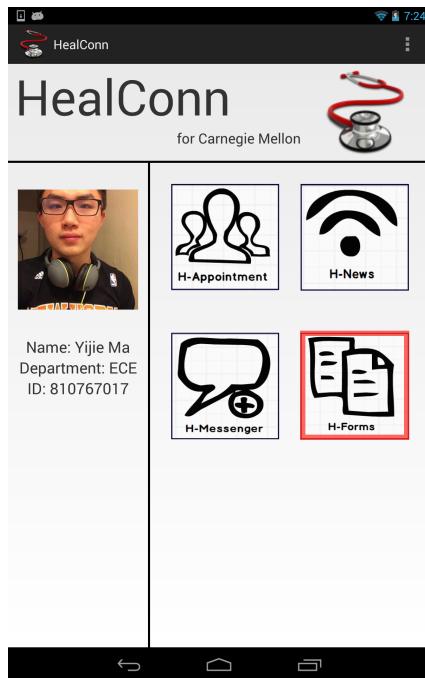

User can select different health news channels, including the University Health Services.

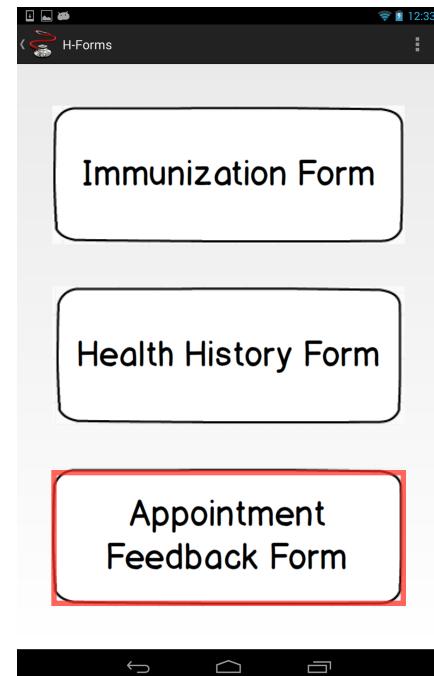

#### 4. Fill in and upload forms

Click the H-Form button on the home panel to start fill in different health forms.

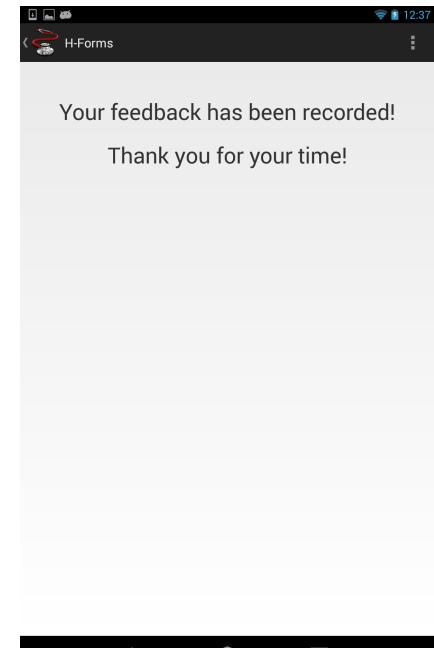

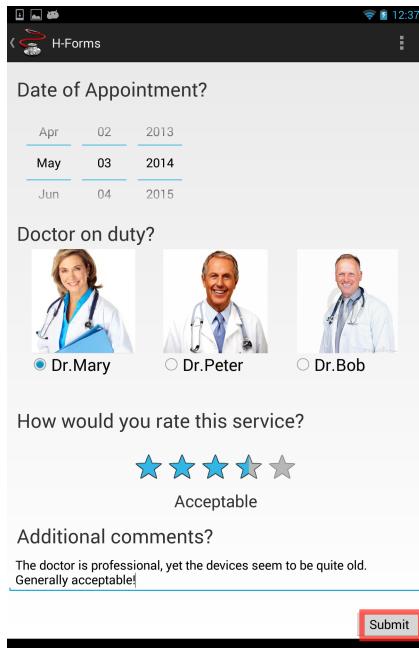

The first two forms are required by CMU. The appoint feedback form is used to let user send their feedback about recent appointment to help improve CMU health quality.

Rate the doctor who has served for user and make extra comments.

Click submit so that the feedback is uploaded to back-end for further review.

User can also use the navigation slide bar to go anywhere inside HealConn, by sliding from the left edge to the middle.
